

SUNDARESHWARAN.M

SENIOR PL/SQL DEVELOPER

📍 Chennai , India

✉️ sundareshwaran1904@gmail.com

☎️ 8825404698

PROFESSIONAL SUMMARY

- PL/SQL Developer with 4.1 years of experience in data analysis and Oracle database development.
- Strong expertise in SQL and PL/SQL development, performance tuning, and production support.
- Proficient in writing complex queries using joins, subqueries, and analytical functions, and developing stored procedures, packages, functions, and triggers.
- Experienced in data migration, ETL processes, and data validation using Import/Export and SQL*Loader.
- Skilled in query optimization, handling large datasets, and resolving data discrepancies.
- Strong understanding of data models and client-server architecture.
- Proven ability to analyze business requirements, collaborate with stakeholders, and deliver efficient database solutions.
- Experienced in production issue resolution, performance enhancement, and maintaining data integrity.

TECHNICAL SKILLS

- | | | |
|-----------------------------|--------------------------------|---------------------------|
| • Oracle PL/SQL Development | • Stored Procedures & Triggers | • Manual Database testing |
| • SQL & SQL*Loader | • Package & Functions Dynamic | • Git Lab |
| • Performance Tuning | • SQL & Ref Cursors | • Bugzilla, Postman API |

PROFESSIONAL EXPERIENCE

Qualtech Edge – miFIN (Lending & Leasing Platform)

May 2024 – Present

Role: Senior PL/SQL Developer

- Working as a Senior PL/SQL Developer handling development and 24x7 L2/L3 production support across multiple client implementations.
- Involved in development and support of LMS (Loan Management System) for lending and leasing products (post-disbursal lifecycle).
- Developed and enhanced PL/SQL procedures, packages, functions, and triggers for loan servicing, repayment schedules, and interest calculations.
- Analyzed and resolved production issues, performed root cause analysis, and implemented fixes for defects and change requests.
- Implemented encryption and decryption logic for PII data to ensure data security.
- Developed and optimized complex SQL queries and business reports, integrated with loan booking systems.
- Worked on API integrations using PL/SQL and JSON for loan booking and disbursal.
- Performed data validation, reconciliation, and issue resolution for financial transactions.
- Executed performance tuning and query optimization for large datasets.
- Involved in manual testing and defect tracking using Bugzilla.
- Managed code versioning and deployments using GitLab.
- Collaborated with teams to improve system performance and reliability.

Role: PL/SQL Developer

- Worked as a PL/SQL Developer in Citi's treasury platform supporting APAC/ EUROPE region.
- Interacted with business users to understand requirements and deliver database solutions.
- Developed and maintained complex SQL queries, stored procedures, functions, and triggers.
- Performed query tuning, index optimization, and performance enhancement using DBMS packages and indexing strategies.
- Designed and implemented table and index partitioning for efficient handling of large datasets.
- Built and optimized complex queries using joins, subqueries, and analytical functions.
- Developed SQL and PL/SQL scripts for data migration and cross-schema data movement.
- Involved in ETL processes, data validation, and reconciliation for financial data.
- Handled production support, including incident management, root cause analysis, and issue resolution.
- Created and managed Change Requests, Incidents, and Production cutover checklists.
- Tuned applications by rebuilding indexes, creating views, and improving execution performance.
- Worked on PL/SQL development and SQL tuning throughout the development lifecycle.
- Collaborated with team members and stakeholders, ensuring effective coordination and timely delivery.
- Environment: Oracle PL/SQL, SQL Developer, UNIX Shell Scripting, Git/Bitbucket

EDUCATION

Bachelor of Engineering (B.E)

JUL 2013 - JUNE 2017

Mookambigai College of Engineering, Keeranur , Pudukottai.

EXPERTISE

Database: Oracle 11g, 12c **Languages:** SQL, PL/SQL **Version Control:** Git, GitLab, Bitbucket **Tools:** SQL Developer, PL/SQL,JIRA, Confluence, Bugzilla. **Deployment & Scheduling:** UDeploy, AutoSys **Access & Utilities:** Tectia SSH, Git Bash **Operating Systems:** Windows, Linux (Red Hat)

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Tamil.
- **Certifications:** Oracle Database: SQL I 1Z0-071 Certified.
- **Awards/Activities:** Team player of the month Twice

DECLARATION

I hereby declare that the information and details provided in this resume are correct and inclusive to the best of my knowledge and belief.
